

Mining Revisions to Questions and Answers on StackExchange.com

Felix Grezes and Michelle Morales

December 19, 2013

1 Introduction

The focus of this project was to work with data from the Stack Exchange website (stackexchange.com). Stack Exchange is an aggregation of question and answer sites on diverse topics. Our project will set out to answer the following question.

2 Data collection

3 Preliminary analysis

4 Task 1

4.1 Correlate Score with Features

4.2 Results

5 Task 2

5.1 Classify Edits

5.2 Results

5.3 Suggesting Revisions

6 Conclusion

7 Future Work
